

## **FerOral®**

**Iron + Folic acid**

### **Dosage form:**

Film coated tablet

### **Presentation:**

30 tablets in bottle pack form

### **Administration:**

Oral, take one tablet daily one hour after meal or consult with a physician.

### **Uses & Indication:**

**Feroral** assists in management of dietary iron deficiency and provides support during pregnancy and breast feeding when the body requires increased level of Iron. An adequate intake of Folic Acid in childbearing women also reduces risk of having a baby with a neural tube defect and also supports blood formation. This product is formulated with Ferrous Fumarate with more bioavailability and less GI complaint. Microcytic hypochromic anemia results when there is inadequate iron to support normal red blood cell formation. At this stage of iron deficiency, symptoms may be a result of inadequate oxygen delivery due to anemia and/or sub-optimal function of iron-dependent enzymes. Fatigue, rapid heart rate, palpitations and rapid breathing on exertion are symptoms of iron deficiency. Iron deficiency impairs athletic performance and physical work capacity in several ways. Severe iron-deficiency anemia may result in brittle and spoon-shaped nails.

**Folic acid** or **vitamin B9** is vital in the metabolism of nucleic acid precursors and several amino acids, as well as in methylation reactions. Severe deficiency in either folate can lead to megaloblastic anemia, which causes fatigue, weakness and shortness of breath.

### **Contraindications:**

No contraindications have been reported to date.

### **Pregnancy and Lactation:**

This product is safe to be used by pregnant or lactating women.

Pregnant or lactating women should consult a physician before using this product.

### **Interaction:**

No interaction with other medicinal products has been reported to date.

### **Adverse Effect:**

No adverse effects have been reported to date.

### **Precautions:**

Always read the leaflet and use only as directed.

Keep out of sight and reach of children.

### **Storage:**

Keep in a cool (below 25 °C) and dry place, away from direct sunlight.
