

Painlys®

Dosage form:

Film Coated tablet

Presentation:

30 tablets in bottle pack form

Administration:

Oral, take 1-2 tablets daily with meal or consult with physician

Uses & Indication:

Painlys is formulated to assist management of joint pain and inflammation associated with arthritis. It Improves physical functioning and provides relief of aching joints and muscles.

Millions of people have arthritis and other painful health problems affecting the musculoskeletal system. A mainstay of treatment for these conditions has been a class of medications known as non-steroidal anti-inflammatory drugs or NSAIDs. NSAIDs are associated with several side effects. The most common are nausea, constipation and headache. Continuous use of these medicines for relieving pain and reducing inflammation is associated with other important side effects like kidney failure, liver failure, gastrointestinal ulcers and prolonged bleeding after injury. To avoid mentioned side effects, natural supplements could be replaced.

Devil's claw has been used as an analgesic and anti-inflammatory preparation for centuries. It is used in herbal medicine as a treatment for osteoarthritis, rheumatoid arthritis, backache, and menstrual pain.

Ginger has been used to help treat arthritis. It helps reduce pain from osteoarthritis.

MSM provides a dietary source of sulfur. It is commonly used for osteoarthritis and musculoskeletal pain. The sulfur content of MSM can be used by the body to maintain normal connective tissues. It has also exhibited possible anti-inflammatory activities. Research has shown that **MSM** is highly effective in improving joint flexibility.
